

I started singing lessons with Kilroy Productions Music Studios about 2 years ago with a friend of mine. Not only has our singing improved, we've been having such a good time; I encouraged my youngest daughter to start singing lessons. She too looks forward to her Monday lessons. It turns out that KPMS is such a hit with my family my 13-year old daughter who has been playing piano for several years decided to switch teachers. Kudos to Jerry & KPMS because teaching a teenage girl is no easy task! Now we can all sing & play together. It truly has become a family experience! Thank you KPMS! **Lauren Rothberg, (voice student & mother)**

# Kilroy Productions Music Studios

**Our Mission: To encourage, empower & mentor young artists in creating & discovering a love for music**

## About Us -

---

KPMS are in-home music studios that operate in Manhattan, Westchester & Putnam Counties & Connecticut. We offer high quality, convenient music instruction plus performance & workshop opportunities, for students from beginners to professionals.

## Philosophy

---

Our philosophy is to build a lifelong understanding and love of music while engaging the student at whatever level they come to us. Focusing on the 'selves', your child will build **self-esteem**, **self-confidence** and **self-expression** through music. Keeping our focus on the progress of each student, we operate with an open door policy that encourages on-going communication between the parents, the teacher, and the director.

## Our Commitment

---

Our faculty is made-up entirely of working artists committed to sharing their gifts & investing students with a deeper appreciation of music whether as emerging professional artists being prepared for auditions, or performances, or for young people curious to try out a new ability.

*The voice lessons have also had a significant impact on ...clarity of speech & articulation...an overall sense of confidence and increased willingness to take risks... We have experienced this warm and caring environment in all our interactions with you and your staff...*

**Melissa Camhy- on 9-year old daughter; voice student**

## Programs

---

We offer instruction in

- piano
- voice
- winds
- guitar/bass
- percussion
- violin/viola

Additionally we are pleased to offer a range of annual performance opportunities from winter & spring concerts where students play alongside faculty & in ensembles, to **Kilroy Kidz** a by-audition only performing ensemble. **Kilroy Kidz**, performs throughout the tri-state area, & conducts the annual Community Service Concert series.

We provide Workshop opportunities, such as healthcare professionals' evaluation of your child's voice, workshops in audition technique, stage presence & composition all to prepare the students in taking their gifts outside the studio.
